& SRI T. M. ARANHA,
JOINT SECRETARIES.

RAMA BHAVAN,
CODIALBAIL,
MANGALORE, S. KANARA.

1st August 1950.

To

The Hon'ble Sri A. B. Shetty
Minister for Agriculture, Fort St. George, Madras

Dear sir

You might be aware that the Association had been pressing for the location of a Cattle Breeding Station and a Poultry Farm in South Kanara for the last time this subject was raised before you when you came here along with the Hon Minister last October and we declared our Agricultural, Fruit & Vegetable Show open.

We thank you for having taken necessary steps & opened a Cattle Farm but we learn that the Poultry Farm is likely to be dropped. I, therefore, hasten to press before you the necessity for opening the Poultry Farm as well. This is a district where cocks & hens are [illegible] you are personally aware of the great interest the ryots

cultivists were taken in rearing fowls for the purpose and the large amounts of money which both the rich and the poor invest on fowls. If only they could be trained to see the advantages of rearing the English breed of poultry and produce large quantities of eggs and birds for the table I am sure you would have done a great service to the Country at a time of food & cattle. Poultry Farming is recommended by all competent authorities as one of the main subsidiary cottage activities, which would supplement the slender income of the poor farmer, and as such richly deserves to be popularised by you wherever conditions are favourable. Perhaps, S. Kanara will prove itself to be a very promising & fertile ground for planting this new activity by your department.

The only question to be considered in this connection is whether the existing Poultry units elsewhere now cannot serve S. Kanara. I may tell you that I am myself a sufferer & the attempt to rear birds with eggs sent from Madras proved to be an utter failure. Out of 36 eggs I got two hatched & only one survived & it is a leg-horn hen. I can mention the names of my friends who repeated the experiments several times & every one was a failure. Unless a poultry farm is opened in S. Kanara itself, it will be very hard to prevail upon the villagers to take to poultry rearing in the way the dept. recommends. For all these reasons I request that the opening of a Poultry Farm already once decided upon may not be dropped.

Yours faithfully

Pl. issue 8.3 7-8-50.

Ref: Government Memorandum No.79027/P&D/II/50-2, Dated 14-8-50.

The Superintendent, District Livestock Farm, Koila and the Dist. Veterinary Officer, South Kanara who were consulted in the matter of opening of a poultry farm in South Kanara district have reported that there is every scope to start a large scale poultry farm at the District Livestock Farm, Koila. The Poultry Development Officer, Madras has been requested to submit to this office a detailed scheme for opening a large scale poultry farm at the District Livestock Farm, Koila. The scheme will be submitted to Government immediately on receipt of the report from the Poultry Development Officer, Madras.

2. The matter is being treated as specially urgent.

Cooum House,
Mount Road, MADRAS.

Dear Sir,

ADDITIONAL ASSISTANT SECRETARY TO GOVERNMENT
29 AUG 1950

Ref: Poultry Unit for South Kanara.

I learn that it was once proposed to open a Poultry Unit for South Kanara in a suitable locality and that the idea is being dropped.

I wish to bring to your kind notice how popular poultry rearing in this district has been and we have been wondering why the Government never thought of opening one in South Kanara, in preference to most other districts in the Madras State. It will be a very fruitful source of subsidiary income to the Agriculturist of this district to learn to rear special breeds of poultry, particularly because of the growing demand and the present high cost of eggs and table birds.

Mangalore is too far away from Madras or Coimbatore to send eggs for hatching. Further the cost of installing and running a poultry unit is practically negligible and out of all proportion to the enormous benefit that will accrue from it. Eggs are such a necessary article of diet both to young and old particularly to school going children. At a time of food scarcity it will be a source of great value as an item of supplementary diet to the young.

In the circumstances, I would very strongly urge upon the Government to open the proposed Poultry Unit in South Kanara without delay.

Sir,

Sub: Livestock---Farm at Koila, South Kanara---district - Opening of a poultry unit - Scheme for

p. 17 above Ref: Correspondence ending with Government (Development) Memorandum No.79027-P&D-II/50-5 dated 3-10-50.

--

p. 1 above In continuation of this office letter Roc.No.1935-V1/50 dated 22-8-50, I submit proposals for the opening of a poultry farm, as the size of a District Poultry Farm, already functioning in the department in South Kanara district to cater to its needs. The farm will be located in the District Livestock Farm at Koila with the staff and equipment as those proposed for a District Poultry farm. In view, however, of the need for economy and with reference to requirements in a farm of the department, already functioning the following provision is suggested for staff and equipment.

A

1) Staff: One Veterinary Assistant Surgeon in the scale of 120-250 to be the Manager, Poultry farm under the Superintendent of the Livestock Farm.

One Poultry fieldwoman on Rs.45-60
Coolies as mentioned below:

	Ist year	2nd year	3rd year
Poultry coolies	2	3	3
Watchman	1	1	1
Boy cooly	-	1	1
Woman cooly	-	-	1
	3	5	6

It is not possible to manage the farm of the size proposed without special supervisory staff in the shape of one Veterinary Assistant Surgeon and one poultry fieldwoman.

2) Equipment:

(a) Foundation stock of poultry

Pullets	50
Cockerels	10.

B

p. 21 below It is proposed to gather the above stock from the Livestock Research Station, Hosur and the Poultry Research Station, Madras. Though this is easy as a proposal, actually it is not possible to collect the entire stock from the above stations. However, the available number will be posted out at the time of opening of the farm. In these circumstances provision is made in the statement of cost for purchase of birds. Hatching of setting eggs drawn from distant places at a new farm to be opened may not be advisable to form a foundation stock.

PTO

p.21 below

(b) Buildings: Provision has been made for an office and incubator block, poultry pens and chicken runs to the barest minimum. A

(c) Deadstock: No provision is made for wire netting as the same is available at the Livestock Research Station, Hosur to the extent required. Provision has been made for 2 large and 2 small incubators.

— do —

The estimates with reference to other details have been worked out for the minimum requirement of the farm.

— do —

— do —

A statement showing the receipts and expenditure on the working of the scheme is appended. As the season for starting the poultry farm is past progressing, I solicit the favour of early orders of Government sanctioning the scheme.

Yours faithfully,

V.R.Rajagopalan 17/10

Sub: POSTWAR DEVELOPMENT -- Livestock -- District Livestock Farm, Koila, South Kanara District -- Establishment of a Poultry Unit -- Sanctioned.

READ AGAIN: G.O.Ms.No.107, Devt. dated 7-1-1950.

READ ALSO: From the South Kanara District Advancement Association, Mangalore, letter dated 1-8-50.
From the D.A.H., No.1935-VI/50, dated 14-10-50.

ORDER MS. NO. 4477 DATED 23-11-50.

H.E. the Governor of Madras approves the proposals submitted by the D.A.H. for the establishment of a Poultry Unit in the District Livestock Farm at Koila, South Kanara District.

2. Sanction is accorded for incurring the following items of expenditure:

(a)	Buildings (Incubator blocks, poultry pens and chicken runs).	Rs. 4,750	
(b)	Deadstock and equipment (Incubators, foster-mother trap nest and sundries).	Rs. 3,400	
(c)	Purchase and Transport of 50 pullets and 10 cockerels.	Rs. 1,000	
(d)	Working expenses (Bird feed etc.)	1st Year Rs.1,475	2nd Year Rs.5,500

3. The Government do not consider it necessary to construct separate office buildings for the poultry unit; the staff should be accommodat- in the main office of the Livestock Farm.

4. In obtaining the foundation stock, as many birds as possible should be transferred from the Livestock Research Station, Hosur and the Poultry Research Station, Madras, and only the rest of the stock may be purchased.

5. Sanction is also accorded for the employment of the following staff temporarily for a period of one year from the date of appointment:

(1) One Veterinary Assistant Surgeon on Rs. 120--250 per mensem.

(2) One fieldman on Rs. 45-60 per mensem.

(3) Two coolies on Rs. 15/- per mensem each.

(4) One watchman on Rs. 10/- per mensem.

6. The expenditure should be debited to "41.Veterinary--f.Breeding operations--H.Postwar Reconstruction--(iv)Cattle Breeding Farm." The D.A.H. is requested to take necessary steps for the provision of funds. The A.G. is requested to admit the expenditure in audit pending provision of funds.

7. All receipts realised by sale of eggs, birds, etc. should be credited to "YYY--Veterinary--Other receipts."

8. The D.A.H. is requested to keep down the expenditure on the scheme to the barest minimum, making full use of the buildings, staff, equipment etc. sanctioned for the District Livestock Farm.

9. The Director is requested to take steps to implement the scheme urgently.

Development (P&D-II) Dept.

Sub: Livestock - Dist. Livestock Farm at Koila - South Kanara Dis. - Opening of a poultry unit

Ref: From the D.A.H., Roc.No.1935-VI/50, dated 14--10--50.

To A.S.

The case relates to a proposal to start a poultry unit in the Dist. Livestock Farm at Koila, South Kanara Dist. When H.M.(Agrl.) visited Mangalore in August last, it was represented to him that a poultry farm should be started by Govt. in that Dist. H.M. ordered that the question of starting a poultry farm or unit as an adjunct to the Dist. Livestock Farm should be investigated. The D.A.H. has accordingly submitted proposals for opening a poultry unit in the Koila Farm. The proposals are examined below.

The poultry unit is to be located in and will function as part of the Dist. Livestock Farm. This will minimise the expenditure on buildings, equipment and staff.

Buildings. The D.A.H. has made provision for the following items.

Office and incubator blocks.	Rs.3000
Poultry pens.	2500
Chicken runs.	250
	Rs. 5750

The need for a separate office for the poultry unit is not quite evident. The Manager of the Poultry unit can be accommodated in the main office of the Livestock Farm. This will probably result in a saving of about Rs.1000 under buildings. For orders.

Deadstock and Equipment. The D.A.H. has provided for 4 incubators, a foster mother, a trap nest, costing in all Rs.3,400/-. The provision seems reasonable and may be accepted. For orders.

3. Foundation stock. A provision of Rs.1000 has been proposed for the purchase and transport of 50 pullets and 10 cockrels. However, it is proposed to

transfer available birds from the Livstock Research Station, Hosur, and the Poultry Research Station Madras, and to purchase only the rest of the stock. The proposal of the D.A.H. may be accepted. For orders.

4. Staff. The staff proposed consists of one Manager (Vety. Asst. Surgeon) on Rs.120-250/- p.m., one Field woman on Rs.45-60-p.m., and a watchman and 4 Coolies (in the 2nd year). This does not seem excessive and may be accepted. For orders.

5. Bird feed. This is estimated at 10 annas p.m. for an adult bird and 6 as. for a chicken. No remarks are called for in this respect

6. Financial effect. The proposal involves a non-recurring expenditure of Rs.9,200 and a reeurring expenditure of Rs.5,700 in the first year and Rs.10,200 in the second year. The receipts are estimated at Rs.5000 in the first year and 16000 in the second year. The scheme seems remunerative. It may be accepted in this Dept.

The case may be sent to Fin. for remarks

Finance (E.II)

The note of Devt. at pp.3-4 above may be perused.

2/ The financial effect of the proposal will be as follows:--

I Non-recurring	Rs
(1) Foundation stock 50 pullets, and 10 cockrels @ Rs 15/- each.	900
Transport for the above.	100
Incubator blocks	2,000
Poultry pens, incubators etc.	6,150
Total	9,150 or Rs 9200/-

Dev. No. 79027-Pt D II/50-7

ADDITL. 25-10-50 26 OCT 1950 9107 FINANCE DEPARTMENT

II Recurring cost for 2 years.

Pay and allowances of 1 Vety. Asst.Surgeon & 1 fieldman	7200
coolies.	1940
Travelling allowance	200
Feeding and miscellaneous charges	6980
Total	17320 or Rs 17300

Total expenditure for two years Rs 26,500/-

(The D.A.H has estimated the receipts for two years at Rs 21,000/-.)

Devt. support the proposal.

3/ The D.A.H., calculating the pay of the Vety.Asst. Surgeon and the fieldman at the minimum of the scales of pay, viz., Rs 140/- p.m. and Rs 45/- p.m. respectively, for the 1st. year and allowing an increment in the 2nd year, has stated that the total cost for two years will be Rs 20,400/-, as against a total income of Rs 21,000 for 2 years. But, as the extra cost, based on the average pay of the post, worksout to Rs 26,500 for a period of 2 years, the scheme will be remunerative (if only) it is continued beyond the 2nd. year and the receipts continue to be as encouraging as anticipated by the D.A.H. It will depend on the non-occurrence of the periodical poultry-epidemics, which claim fearful toll of all poultry stock. However, in view of the known food value of the scheme, this Dept. need not object to the proposal.

As the staff proposed is moderate and other items of expenditure are presumably based on actual requirements, no special remarks are called for on the details of the proposal

4/ Financial procedure: It is usual to consider schemes of this kind as Part II Schemes. As there appears to be no special reasons for sanctioning the scheme immediately this Deptt. may advise that it may be brought forward for consideration as a Part II Scheme for 1951-52.

SUMMARY.

The case relates to a proposal to start a poultry unit in the District Livestock Farm, South Kanara.

In response to representations received from the local public in this connexion, the D.A.H. has submitted proposals for opening a small poultry unit, taking advantage of the buildings, staff and other facilities available in the District Livestock Farm at Koila, to minimise expenditure. The scheme involves a total expenditure of Rs. 26,500 for a period of two years, and the receipts are estimated at Rs. 21,000 for the two-year period. Both this Department and Finace have accepted the scheme. Finance have, however, suggested that it may be treated as a Part II scheme for 1951-52.

H.M.(Agri.) is very keen that the scheme should be started without delay and that the present favourable season should not be lost. This Department may therefore press for sanctioning the scheme in the current year itself.

'M' on p 2 above

The case may be circulated to H.M.(Agri.), H.M.(Fin.) and H.C.M. for orders whether the proposal to start a poultry unit in the District Livestock Farm, Koila will be sanctioned.

The non expenditure for the next two years will be only as 5500/- it is likely to be self-supporting thereafter. Now is the most favourable season to start one poultry unit. Let one new livestock farm have this poultry unit attached to it to make it more

useful to the public. The proposal may be sanctioned for introduction in the current year.

Sub: Livestock - District Livestock Farm - South Kanara - Opening of a poultry section.

H.M.(Agri.) desires information as to the present stage of the proposals for opening a poultry unit in the South Kanara Dist. Livestock Farm.

When H.M. visited South Kanara in August last, it was represented that a poultry farm was a long-felt want for the district. It was therefore ordered that the question of starting a poultry farm or unit as an adjunct to the Dist. Livestock Farm at Koila should be investigated. The D.A. accordingly submitted proposals recently for opening a poultry unit in the Koila Farm.

The poultry unit is to function as part of the Livestock Farm, using the buildings and staff already sanctioned for the general livestock scheme. However, it is proposed to employ a small additional staff of one Veterinary Asst. Surgeon, a Fieldman, a Watchman and a few coolies, The scheme involves an expenditure of Rs.9,200 N.R. and Rs.5,700 under recurring in the first year and Rs.10,200 in the second.

The proposals have been examined in this Dept. and sent to Fin. On the return of the file from Fin., the case will be circulated for orders.
